

NOTE: This appendix may take a long time to format and print.

Most of the graphics in this appendix have to be scaled and rotated slightly, which causes WordPerfect to burn a lot of processor to get ready to print. Your PC may appear to lock up because it may take a couple of minutes for your pointer to come back, but the PC is really just doing a **lot** of computing. Please be patient.

APPENDIX B

SAMPLE RFA REPORTS

APPENDIX B - SAMPLE RFA REPORTS

This appendix contains examples of RFA reports that display GEO, TUCHA, TUDET, LFF, PORTS, and APORTS reference file information. Included is a representative sample of each type of report, as shown below:

<u>Figure</u>	<u>Caption</u>	<u>Page</u>
Figure B-1.	Reference File Summary Report	B-2
Figure B-2.	Geographic Location Session Update Report	B-3
Figure B-3.	Geographic Locations Report	B-5
Figure B-4.	Geographic Locations Autodelete Report	B-6
Figure B-5.	TUCHA Session Update Report	B-6
Figure B-6.	Unit Type Codes Listing	B-7
Figure B-7.	TUCHA Autodelete Report	B-7
Figure B-8.	TUDET Session Update Report	B-8
Figure B-9.	Type Unit Equipment Detail Report	B-8
Figure B-10.	Input Transaction Listing TUDET Transactions	B-9
Figure B-11.	Input Transactions Error Report, TUDET	B-9
Figure B-12.	JRS Edit Report, TUDET Transactions	B-10
Figure B-13.	LFF Cycle Update Report	B-10
Figure B-14.	PORTS Session Update Report	B-11
Figure B-15.	APORTS Session Update Report	B-11
Figure B-16.	APORTS Merge Audit Report	B-12
Figure B-17.	Airfields Extract Audit Report	B-12
Figure B-18.	Priority GEOLOCs Report	B-13

Where two or more reports have the same format, a sample of just one of the reports is included. For example:

- The Reference File Summary Report always contains the same contents, even though it can be initiated from several menus.
- The Session Update Report has the same column headings as the Cycle Update Report, and they both have the same column headings for each reference file, differing only in the data displayed. Therefore, only a complete sample of the Geographic Location Update Cycle Report and a detail page sample from the Geographic Locations Session Report are included.
- The column headings of the LFF Input Transaction Listing are the same as those of the PORTS Input Transaction Listing. These two reports differ only in the data displayed, so only an example of the TUDET Input Transaction Listing is included.

- The column headings of the LFF Input Transaction Listing are the same as those of the PORTS Input Transaction Listing. These two reports differ only in the data displayed, so only an example of the TUDET Input Transaction Listing is included.

If the report for a particular reference file is not included, look at the example of that report for another reference file.

REFERENCE FILE SUMMARY REPORT
